## Center Is Okayed

**BELLE GLADE** — Preliminary approval for construction of a public health center here under the Hill-Burton Act has been granted in Washington, County Commissioner Paul Rardin informed the Belle Glades Chamber of Commerce this week.

A site for the center must be designated before the next step toward approval can be given, Rardin told the Chamber.

Belle Glade and Pahokee both have now obtained approval of the first step toward getting health centers. Pahokee City Council informed County Attorney Harry Johnson in February that it had selected land adjacent to Everglades Memorial Hospital for the site of the proposed building, but has had no word as to the progress of planning since that time.

## IN BELLE GLADE —

## Vegetable Crop Day Is May 4

The Vegetable Crops Field Day for the Everglades Experiment Station is planned for Tuesday, May 4, the program to start at 9:30 a.m. at the sweet corn disease nursery on the farm of O. B. McClure, located near Pahokee, Dr. W. T. Forsee, Jr., announced yesterday.

The afternoon program will begin at 1:30 p.m. with an assembly at the Station. Short discussions of the work in progress will be given by staff members. There will be followed by field tours which will include variety trials with sweet corn, snap beans and celery, pre- and post-emergence weed control experiments with sweet corn and onions, fertilizer and nutritional spray experiments with sweet corn, peppers, and blackeye peas, corn earworm insect control, corn earworm resistance studies and research with virus diseases.

"Although May 4 is election day, the date was selected because field days already have been scheduled for May 5 and 6 at Indian River Field Laboratory, Fort Pierce, and Gulf Coast Experiment Station, Bradenton, respectively," Dr. Forsee said.

As a preliminary to field day, next Tuesday afternoon is scheduled for observation of sweet corn plantings in the disease resistance nurseries at the McClure farm for those who are primarily interested in sweet corn. They might be unable to attend the general Vegetable Crops Field Day on May 4. It is suggested that those who will attend this special field day assemble at the plots at 1:30 p.m. Present Tuesday will be Glenn M. Smith, sweet corn breeder for the United States Department of Agriculture, stationed at Purdue University, who has been at the Station for several weeks participating in research work in the testing of sweet corn varieties. Dr. Merle Jenkins, principal cereal crops agronomist, Field Crops Research Branch, Agricultural Research Service, USDA, Beltsville, Md., will also attend the Tuesday event.

Scout Awards Are Given Thursday

**BELLE GLADE** — Scouts and visitors from Canal Point to Clewiston gathered at the high school gym in Belle Glade last night at 7 a.m. Sunday, leaving about 7 a.m. Sunday, leaving from the Pahokee waterfront on the mouth of the St. Lucie, depending on the condition of Lake Okeechobee.

All boat club members are invited to make the trip, and may get final plans from McKinstry, he said.

**BOAT CLUB PLANS SUNDAY CRUISE**

McKinstry said.

Forces will be combined for a bring-your-own picnic lunch. B.P. members plan to shove off about 7 a.m. Sunday, leaving from the Pahokee waterfront on the mouth of the St. Lucie, depending on the condition of Lake Okeechobee.

All boat club members are invited to make the trip, and may get final plans from McKinstry, he said.

**BELLE GLADE** — The annual athletic banquet will begin tonight at 8 at the elementary school gymnasium, Athletic Director Calvin J. Deacock has announced.

## HARDAWAY IS CANDIDATE

**PAHOKEE** — R. D. Hardaway, Pahokee insurance man, yesterday announced his candidacy for City Council, opposing Incumbent Candidate Loren Meredith in Group 3.

Hardaway is the first announced opposition in the city primary May 4, with Mayor Lewis Friend, City Clerk Dorothy Graham, Police Chief Leon Guthrie, and City Councilmen Meredith, James Harry Wilkinson, Jr., and R. B. Simonson, all running for reelection.

Hardaway, in announcing, said he is "running for a better form of city government." This is the first time he has been a candidate for public office.

The 36-year-old candidate has been a resident of Pahokee since January, 1946, coming here from Arkansas. He was in contract harvesting for a short time before becoming an insurance agent. He is with United Insurance of Illinois, Dixie Life Divn.

Hardaway is married and has two sons, Richard. He is a member of First Baptist Church and the Chamber of Commerce.

**JUNE FOR BRIDGE START PROBABLE**

**PAHOKEE** — June, and possibly earlier, will see the start of construction of the new South Road Department in Tallahassee following notification that the contracts definitely will be let May 11.

State Road Board Member Dave Turner wired Elliott Wednesday afternoon that he had been informed by the State Road Department in Tallahassee that the two bridges "will be in May 11 letting."

Allowing the contractor who gets the job the full grace period would put start of construction at July 11 latest, but the probability is that the work will begin much earlier, Elliott said.

**Band Concert In Pahokee Sunday**

**PAHOKEE** — The Pahokee high school band will make its final local performance including its senior class members Sunday afternoon at 8:30, at a concert at the high school auditorium.

This 14th anniversary concert, conducted by Bandmaster Robert O. Lampi, will include Seniors Stella Sue Barnes, Alden Chase, Arlene Rainer, Shirley Ammons, Martha Culberson, Jeannie Platt, Carol Carpenter, Donna Gail Jensen, Donald Pickett, Bonnie Miller, and Frances Wilson.

## Tag Storm Abated

The sound and the fury resulting from issuance of a number of citations last Friday to owners of vehicles carrying "P" license tags in the Glades died temporarily this week when Acting Gov. Charley Johns ordered suspension of citation issuances until a study of the law is made.

Johns Monday told Belle Glade listeners to his campaign talk that he would instruct Tag Commissioner E. V. Fisher to hold up the citations pending clarification of the law, which subsequently has been done.

Rep. B. Elliott, sponsor of the amendment which broadened "P" tag issuance to some farm vehicles, told the Pahokee Lions Club Tuesday noon that he had been "pretty much aware" that the citations were going to be made but that he did not see on what basis Glades farmers could be prosecuted for carrying "P" tags within the restrictive provisions. Obviously angered by the sweeping issuance of the citations, Elliott told his listeners that the law was too strict and that at such time as the Supreme Court ruled to the contrary, "nobody, including the Attorney General, could change the P tag amendment."

Meanwhile, in Tallahassee, Attorney General Richard W. Ervin has issued an opinion on March 10, 1954, which read, in part, "A truck which is used exclusively in a grove or on the land in agricultural work and is never used to carry loads over the public roads should carry a 'P' series tag . . ."

"P" tag vehicle is operated as forbidden by the act, the facts and circumstances surrounding the determination whether or not it is so considered and evaluated . . . in order to determine whether or not the use of the agricultural vehicle of a tag privilege has been abused."

**2 Glades Rallies For Candidates**

Two Glades political rallies will present all Democratic candidates for office for the public tonight and next Friday, April 30.

Tonight, the Democratic executive committee of Palm Beach County is sponsoring a free square dance at Belle Glade American Legion Hall, beginning at 8 p.m. All candidates have been asked to attend, according to Committee Chairman C. J. Fox.

Next Friday night, the Jaycees will hold a political rally at Belle Glade high school gymnasium, according to Chairman Claude Jones.

All candidates have been asked to give a five minute speech each on "Why I Should Be Elected." All Glades voters are invited to the rally, and there's "plenty of room" for spectators, Jones said.

**SCOUTS TO BEGIN FUND DRIVE FOR**

**BELLE GLADE** — The kickoff breakfast for the annual Glades fund drive for the Boy Scouts of America will be held at Bell's Restaurant in Belle Glade at 7:30 a.m. Tuesday. The program will be in charge of Arthur C. Ruppel, Jr., chairman.

Among those attending the meeting will be Mack Gaskins, executive, and Leroy High, field executive of the Gulf Stream Council office, who will discuss the Boy Scout program in the Glades district.

All full drive workers and others interested in the Scout movement are urged to attend to receive instructions for the following drive.

"It has been pointed out that it costs \$15 a year per boy in the Scouts and that each juvenile delinquent costs the state \$1500 per year. Therefore, each dollar given the Scouts is worth \$100. Building boys is cheaper than sending men to jail."

Advancement Chairman Victor E. Green, Jr., in announcing the kickoff breakfast.

In 1953, the Glades contributed \$1,363 and Pahokee \$197 to Gulfstream Council receipts.

Dear Editor:

I was tremendously impressed by the cartoon that appeared in your publication this past Thursday headed "The Triumph of Life." I thought it carries terrific impact and is one of the best of its type that I've ever seen. Assuming you cast it from matrix, do you have any further use for the mat? We would like to have it or at least borrow it for some future use. Perhaps you could inform me where you secured it so we could get a mat of it. Any information will be much appreciated.

## OBSERVATIONS

By  
BENJAMIN S. ROBERTS

John Foster Dulles, our Secretary of State, has returned from Europe where he asked Great Britain and France to join us in strategies aimed at deterring further Russian inspired aggressions in South East Asia.

Why should we be interested in that far off part of the world?

What is there in it for us?

The brunt of our participation in World War II

was in the South Pacific. The staggering casualty lists from the jungles of New Guinea to the shores of Two Jima tell of their interest in that part of the earth.

Not an interest aimed at acquiring territory. Not in the least. An interest aimed at seeing that conquered peoples were liberated from their enslavement under Japan. Furthermore the commodities of rubber and tin produced in South East Asia were and are critical materials on our supply list.

Now those areas are again threatened. The operation of driving out Japan was not enough, now we must see that our ally of necessity, Russia, does not win for her own use and aggrandizement lands which we freed for the self-determination of those people residing in them.

True it is that most of South East Asia was held by European mother countries and was being exploited by them to greater or lesser degree. That was the affair of the particular mother country and the colony. It was not and is not our concern. Returning the countries to a state in which they can make their own decisions either within an empire scheme or as independent states is our implacable foe.

NATO has contributed to keeping the peace in Europe. Whether the arrangement we seek will be called SPATO or what matters not.

There is nothing in it for us short of war if it doesn't work. Let us hope it does so that we can say we have really won World War II in the Pacific and prevent further communist depredations in territories we cannot afford to have in the hands of our implacable foe.

Say it with...

### A FALSE ISSUE

An absurd campaign issue is being raised these days by Brailley Odham against LeRoy Collins as these two emerge as the apparent front-runners in the three-way race with Johns—as curious as some of the charges Odham dredged up against the respected Dan McCarty two years ago.

This "issue," if it can be dignified by that term, is that because Collins' law firm in Tallahassee represents certain large corporations, including the Seaboard railroad, Western Union and Southern Bell, he is disqualified from filling public office with integrity and cannot be trusted with the conduct of the people's business. A similar charge is heard in connection with other political races too.

Odham has been the Sanford distributor for the Gulf Oil Corp. for the past years, including the period of the two terms he served in the Legislature in 1947 and 1949. If he were to be elected governor he undoubtedly would retain his ownership of his Gulf Oil business; at least he never has been heard to say that he would dispose of it. Gulf Oil is a big and powerful corporation. It is directly interested in gasoline tax and other legislation, in Florida oil leases, and in many other matters which are disposed of at Tallahassee. But nobody suggests that Odham, because of his tieup with

the Gulf Oil Corp., would be swayed from devotion to the public interest by that connection or that it makes him unfit for public office. That a big corporation deems him worthy of representing it in his territory is to Odham's credit, not his discredit.

Similarly the stature of the clients who find Collins worthy of counseling and representing them at law should be a point on the credit side of his ledger. That a man who started out as a humble grocery clerk, put himself through law school by his own efforts and built up a railroad, which numbers important corporations as clients speaks eloquently of his talents and ability.

The ridiculous part about this campaign cry that a lawyer with important clients cannot be trusted to represent the public, however, is this—that if any such doctrine were valid, it would doom the public to be represented by mediocrities as public officials and preclude their having the services of the top men of the legal and other professions and of business. It is the good lawyers who get the big corporations for clients, just as it is the better businessmen who achieve connections with big businesses. If such men are to be barred from public office because of their professional and business connections, then the people can have only second-rate public officials. Voters who think the matter through won't go for that.

## FIRST CHURCH OF CHRIST, SCIENTIST, Belle Glade

## CHRISTIAN SCIENCE GROUP Canal Point

That unwavering obedience to the eternal demands of Christ is the only way to individual salvation and progress will be brought out at Christian Science services this Sunday.

The lesson-Sermon entitled "Probation after Death" includes the following passage from the Bible:

"Wherefore, my beloved, as ye have always obeyed, so as in my presence only, but now much more in my absence, work out your own salvation with fear and trembling" (Philippians 2:12).

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following passage will be read:

"Vibrating like a pendulum between sin and the hope of forgiveness... selfishness and sensuality causing constant retrogression... our moral progress will be slow. Waking to Christ's demand, mortals experience suffering. This causes them, even as drowning men, to make vigorous efforts to save themselves; and through Christ's precious love these efforts are crowned with success" (22:3).

The Golden Text is from Psalms:

"Examine me, O Lord, and prove me: try my reins and my heart" (28:2).

Rev. W. Hal Hunter is conducting revival services at the Baptist Church at Key Largo.

## So They Stopped Baiting Each Other

If you want to hear a real hassle, listen to Coh Jans on fishing. Whitley Baker on trout fishing sometime. You'd think it was more important than anything.

Cob favors dry flies. Whitley pooh-poohs anything but wet flies. Cob swears by a Fan-Wing Royal Coachman. Whitley won't hear of anything but Silver Doctor. After all, it goes—they can't even get together on steel rods versus bamboo rods.

But on Saturday, each got back from Coh Creek with a catch that couldn't have differed by more

than a couple of ounces! Then over a friendly glass of beer they allowed as how maybe they were both right... which is how so many arguments should end.

From where I sit, life would be a whole lot pleasanter if we all respected one another's opinions—whether about trout flies, or having a glass of beer, or voting. After all, a person has a right to follow his own line of thinking.

# New strength and stamina! Lower upkeep costs!

## New Chevrolet Trucks...

do more work per day... more work per dollar!

You save hours on the road. Thanks to new high-compression power, you can maintain faster schedules with wider and longer. Also, maximum speeds. Increased acceleration and hill-climbing ability let you save time where it counts.

You save time on deliveries. With new truck Hydra-Max transmission, you save time at every delivery stop. And you can forget about clutching and shifting for good! It's optional at extra cost of 1/2, 3/4, and 1-ton Chevrolet trucks.

You save extra trips. That's because of the extra load space you get in the new Advance-Design bodies. New pick-up bodies are deeper, new stake and platform bodies are wider and longer. Also, they're set lower for easier loading.

You save with lower upkeep, too. Extra chassis strength saves you money on maintenance. There are heavier axle shafts in two-ton models... bigger clutches in light- and heavy-duty models... stronger frames in all models.

You save on operating costs. New power saves you money every mile! The "Thriftmaster 235" engine, the "Loadmaster 235" and the "Jobmaster 261" (optional on 2-ton models at extra cost) deliver increased operating economy.

And your savings start the day you buy. In fact, they start with the low price you pay and continue over the miles. Chevrolet is America's lowest-priced line of trucks. It's also the truck that has a traditionally higher trade-in value.

Come in and see all the wonderful new things you get in America's number one truck. We'll be glad to give you all the money-saving facts.
